

Meet Our OHSU Hillsboro Family Medicine Residents – the Class of 2025!

"I love being back in the Pacific NW and spending time with family and friends! It has been wonderful getting to serve the communities and people that I grew up with. My favorite part of OHSU Hillsboro has been getting to know all the amazing faculty and all my co-residents!"

-Marissa Bruno, DO, PGY 1

"As someone who grew up in the area, I am really enjoying the opportunity to practice in my community. The staff, both at HMC and the clinics, have been incredibly helpful and friendly every step of the way. You can tell there is a vested interest in helping all of us reach our potential as coworkers and providers. It's also been fun having a chance to explore the area again after having been gone for medical school. Seeing how much Hillsboro has grown and continues to grow as a community is astounding, and I look forward to being in the community space over the next three years."

- Jacob Huegel, MD, PGY 1

"My favorite part of residency so far has been the community outreach. We have a rotation called Salud where we get to go out to vineyards and serve those who may not have access to healthcare. Growing up in Oregon, it was truly eye opening to learn that Salud was started locally here in Hillsboro. Now, every time I drink wine, I am much more appreciative and reminded of all the hard work that goes into a glass."

-Lisa Huynh, DO, PGY 1

“Peanut and I are so happy to finally be living that Pacific Northwest life! Being in Hillsboro means getting to the coast in just over an hour and having all the fun and wonder of Portland in under 30 minutes. From local events to hangs in the park, exploring the city with my co-residents has definitely been one of the highlights of joining this family med family!”

-Taryn Lai, MD, PGY 1

“Having lived in Portland for medical school, I was lucky enough to stay in the area when I joined Hillsboro Family Medicine. I have been blown away by all that Hillsboro offers. The town has its own vibe and culture that makes it so unique. The people, patients, and staff at the hospital and clinic bring a comfortable and welcoming atmosphere which allows you to be the best resident possible. The residency offers the best of both Family Medicine worlds: towards the coast there is a feel of frontier/rural medicine, while still having the world-class specialists and amenities of the medical centers in Portland.”

-Will Moore, MD, PGY 1

“Hillsboro has been very welcoming to me and my family. It’s an awesome place for adventure. From the nearby beach to the numerous hiking trails. In addition, the people in this community are very friendly. From the local farmers we encounter at the farmers market to the wonderful people that make up our residency program. I have always believed that a place is only as good as the people you know. I appreciate my co-residents, faculty, and staff and all the support they provide in this journey.”

-Juan Razo, DO, PGY 1

It has been so much fun getting to know my co-residents as well as all of the faculty and staff in the OHSU Hillsboro family. I am surrounded by people who have a great sense of humor, who are also excellent resources and incredibly supportive, making work FUN. I have already grown so much as a physician and am looking forward to the years to come.

-Catherine Reid, DO, PGY 1

“The thing I enjoy the most about the Hillsboro Family Medicine program is the strong community feel and our wonderful first and second year residents. Individuals here take pride in making HMC a great place to work and Hillsboro a great place to live. I am thankful for the opportunity to serve the community where I grew up.

-Jorge Rodriguez Toro, MD, PGY 1
