

Meet Our OHSU Hillsboro Family Medicine Residents – the Class of 2025!

“This past year of family medicine residency at Hillsboro Medical Center has been a year of laughs, frustration, understanding, learning, and growing. Despite spending years learning about medicine in school, I found that you truly understand the gestalt of medicine through experience. Some of these experiences have really tested my knowledge but also my compassion and comprehension of human emotion and behavior. I feel that now as a senior resident I am honing in on the processes and systems I want to create in order to continue improving my practice. I feel so lucky to have supportive co-residents, chiefs, and faculty throughout the process and can't wait to see how we all grow together!”

-Marissa Bruno, DO, PGY 2

“Watching the residency continue to grow over this last year has been wild. As someone who grew up in the area, I never thought I'd have the opportunity to complete my residency training here as well. Staff at HMC and the clinics are, and always have been, so welcoming to residents and are fully dedicated to helping this program continue its expansion towards its potential. Additionally, it's been incredibly rewarding to watch my panel of patients grow and even occasionally see them in the community. It really does show what a positive impact this residency has on this area. I feel like I have really hit my stride and look forward to how the residency will continue to grow over the next two years before graduation.”

- Jacob Huegel, MD, PGY 2

“The best part of residency has been the enriching friendships that this program has brought me. Nothing beats being in an environment where I always feel supported!”

-Lisa Huynh, DO, PGY 2

“It has been such a privilege to train with and among these awesome people this past year. I am grateful for the support, knowledge and care they have infused our program with and look forward to practicing more full-spectrum, community-centered family medicine together!”

-Taryn Lai, MD, PGY 2

“Having lived in Portland for medical school, I was lucky enough to stay in the area when I joined Hillsboro Family Medicine. I have been blown away by all that Hillsboro offers. The town has its own vibe and culture that makes it so unique. The people, patients, and staff at the hospital and clinic bring a comfortable and welcoming atmosphere which allows you to be the best resident possible. The residency offers the best of both Family Medicine worlds: towards the coast there is a feel of frontier/rural medicine, while still having the world-class specialists and amenities of the medical centers in Portland.”

-Will Moore, MD, PGY 2

“Hillsboro has been very welcoming to me and my family. It’s an awesome place for adventure. From the nearby beach to the numerous hiking trails. In addition, the people in this community are very friendly. From the local farmers we encounter at the farmers market to the wonderful people that make up our residency program. I have always believed that a place is only as good as the people you know. I appreciate my co-residents, faculty, and staff and all the support they provide in this journey.”

-Juan Razo, DO, PGY 2

“I love being a part of the OHSU-Hillsboro family! I have learned so much over the last year and have enjoyed getting to know the Hillsboro community. My co-residents are all incredibly supportive and our collective good humor keeps work FUN! I love seeing our growth as individual physicians and as a residency program as a whole. Looking forward to years to come!”

-Catherine Reid, DO, PGY 2

“The thing I enjoy the most about the Hillsboro Family Medicine program is the strong community feel and our wonderful co-residents. Individuals here take pride in making HMC a great place to work and Hillsboro a great place to live. I am thankful for the opportunity to serve the community where I grew up.”

-Jorge Rodriguez Toro, MD, PGY 2
