

Meet Our OHSU Hillsboro Family Medicine Residents – the Class of 2024!

"Time has definitely flown by. I feel so grateful to have had the opportunity to learn alongside such wonderful co-residents and faculty. Of course, none of this would have been possible without our program coordinator, Rebecca, who might be the most competent, not to mention the kindest, person on the face of this planet. It's sad to even contemplate this last year coming to an end, but I'm excited for what lies ahead, as I know I've made lifelong friends along the way

-Ally Bray, MD, PGY 3

"It is hard to believe that I am in my third year of residency. Though the days have been long, the years have gone by too quickly. I am grateful for the unique experience of being part of the inaugural class in Hillsboro. I want to thank the faculty and staff, especially the program coordinator, Rebecca, we would be lost without you. And to my R3 class, thank you for your generosity, kindness, compassion, support, and encouragement. I am in awe of each of you and I can't wait for all the amazing things you'll do."

-Dione Fernandez, DO, PGY 3

"Over the past two years, I have enjoyed getting to know the new members of our program and discovering my role as a senior resident. The vibe throughout our residency revolves around support, and we see each other as one big family. One person at the center of it all is our incredible coordinator, Rebecca. Being able to learn and grow together as a community has always been my favorite part about the journey through medical training, and I have found that here in Hillsboro."

-Justine Lawson, DO, PGY 3

"Reflecting back on my time as a resident, I'm amazed at how much I've learned and remain thankful for the people I have the pleasure of working with every day. I genuinely look forward to going to work every day because of the people that I get to work with. I would especially like to thank our program coordinator, Rebecca, for all the work she does for our residency."

-Alyssa Morrow, DO, PGY 3

"I am incredibly lucky to be part of this group. My co-residents are warm and welcoming. They've supported me and challenged me to grow. They are in the top percentile for best people on the planet. The faculty have taught me so much. They've fostered my interests and helped me to find my niche in the big, wide medical world. They've also bought me lunch 1,000 times. Specifically, I want to thank our program coordinator, Rebecca, who is both the heart and the spine of this program. She should have a gold statue built in her honor!"

-Aaron Chambers, MD, PGY 3

"Embarking on the last year of residency, it continues to amaze me how far our class has progressed over the course of two years. I am thankful to have chosen a smaller hospital for training where residents are sought out when there are learning opportunities. I am excited to be part of the full cohort in this year as we continue building a strong program that values individual career goals. Our class could not have made it this far without a strong support system such as our wonderful program coordinator, Rebecca, and to the many dedicated attendings."

-Logan Ellis, DO, PGY 3

"Looking ahead to my final year of residency, I am both excited and anxious. There is still so much to learn and experience, but I am also eager to transition into a more independent role. I am grateful for the mentors who have guided me, the colleagues who have supported me, and the patients who have entrusted me with their care. I am also incredibly grateful for our program coordinator, Rebecca, who is a pillar of this program. As I continue this journey in family medicine, I am reminded of the profound impact we can have on people's lives. It is a privilege to be part of a field that emphasizes not only the science of medicine but also the art of healing and human connection. My third year has been a testament to the transformative power of medicine, and I cannot wait to see where this path will lead me in my final year and beyond!"

-Esteban Garza, MD, PGY 3
