## **INSTRUCTIONS AFTER YOUR COVID TEST**

The result of your COVID test is available within 48 hours.

If **negative**, you will not be notified until admission on the day of surgery.

If **positive**, you will be immediately notified by phone and instructed on further action, including:

- Isolation
- Delay of elective surgery
- Follow-up with your primary care physician
- Additional evaluation if indicated

Negative results are also on [MyChart](#) as soon as available, if you have signed up.

To minimize the chance of COVID infection in the 48-72 hours period after testing and before surgery, we request you do the following:

- Minimize contact with others (isolate if possible)
- Maintain masking, social distancing, and hand hygiene if contact is unavoidable.
